

SolidarMed is the Swiss organisation for health in Africa and improves health care for 1.5 million people in Lesotho, Moçambique, Tanzania, Zambia and Zimbabwe. SolidarMed sustainably strengthens and meaningfully expands existing health services.

We offer an exciting position for a mid-career development professional. **Based in Lucerne** as part of the international program department, you will manage the country program portfolios of **Zambia and Lesotho**.

Health Program Manager Zambia and Lesotho (80%)

Your tasks and responsibilities

- Strategic and thematic steering of programs and projects, together with country directors
- Project and program cycle management, including planning, budgeting, monitoring, reporting, log-frame development and project document compilation
- Proposal writing, institutional fundraising, key donor liaison
- Knowledge management, documentation and operational research
- National, international and internal networking
- HR and financial management and administration incl. recruitment, in cooperation with the SolidarMed administration unit.
- Regular program-related international travel (approximately 3 weeks per year)

To best fit into our team, you have the following qualifications:

- Development professional with project management experience
- Expertise in public health. Experience in HIV, malaria, MNCH or research is an asset.
- 2 years work experience in Africa or more
- Masters-level or higher
- Successful acquisition of institutional funding/mandates in the past
- High motivational and team-leading skills
- Fluency in English and German. Very good writing skills in both languages
- Hands-on, pro-active, able to develop initiatives
- Swiss or EU National; work permit Switzerland

Qualified candidates are passionate, results-oriented team players with relevant experience and expertise, strong management and leadership skills and a proven ability to deliver in a fast-paced international environment.

We offer

An attractive benefit package commensurate with Swiss standards. Flexible working times, a stimulating environment and flat hierarchies. Our team combines a great mix of ambition, dedication, experience and expertise drawn from a range of backgrounds including health, development, research, business and charity. We encourage professional development and offer access to national and international competence networks.
